MCA Department Examination Policy

Examinations/student assessments play a very important role in deciding the quality of education. It should not only assess student's achievements (and grades) but also measure whether the desired learning outcomes have been achieved. The achievement of objectives/course outcomes and program outcomes are crucial and needs to be proven through accurate and reliable assessments.

For each course, 25 will be based on evaluation and 50 marks for semester end examination conducted by University, unless otherwise stated.

2) The internal evaluation of 25 marks further divided into Written Examination (Assignments/Unit test/written examination etc.), Practical and Tutorials. The details have been specified in each course.

There will be one Practical course and one Mini Project course in each semester with 75 marks allotted for internal evaluation and 50 marks allotted for University examination. External assessment will be done by university appointed examiner. During external examination, examiner should ask the programs/practical ONLY from the work book of the students.

Each Unit should have assessment as a part of Concurrent Internal Evaluation (viz. MCQ/GD / Presentation/ Seminar/Case study/ Real life App Development.
