Criterion IV: Infrastructure and Learning Resources

4.2.1 Library is automated {Integrated Library Management System -ILMS}

Library Management System (ILMS)

To keep pace with technology, library is fully automated with AutoLib software in year 2012. The software is upgraded in 2015 and 2021. AutoLib-NG software is an integrated multi-user Library Management System which supports all in-house operations of the Library. The AutoLib consists of modules on acquisition, cataloguing, circulation, serials, article indexing and OPAC. Features include Book History, Member History. (Users Accounts Details) . WEB- OPAC and E-Content Module is newly added.

Use of ICT in Knowledge Center.

Institutional Repository

Library has developed institutional Repository through D-space software which consist of

1. Project reports
2. Scanned university Question Papers
3. Scan copy of syllabus
