INTRODUCTION

The TejGyan Foundation is a humanitarian organisation based in Pune, India. The objective of the foundation is to create a "highly evolved society" through the motto of "Happy Thoughts". The foundation is best known for its spiritual retreats and events, which included the Happy Thoughts World Peace Festival which was held on 10 October 2010, where the Dalai Lama was a guest and speaker.^[4] The foundation is also in the Limca book of Records for their book Magic of Awakening and Warrior's Mirror .

The TejGyan Foundation was founded in 1997 by Sirshree. The foundation was created to help people realise the true purpose of their life. This method of understanding was created by Sirshree, and is known as the "existential wisdom of the ultimate truth."

Since it was created, the foundation has been responsible for publishing a number of books Mirror and The Magic of Awakening. The two books were published by Penguin India in 2010 and 2011 respectively.

The foundation has also created a number of events and seminars based on Sirshree's teachings. This includes the seminar Fearless child, the program focuses on cultivating the fearlessness.

MAIN OBJECTIVE

The main objective of this session were -

1. Sirshree wanted to tell people how to live a happy worry free life.
2. To make aware people about their sub-conscious mind and how to make their lives good by it.
3. To know the real worth of ones and to unleash the magic within.

DESCRIPTION OF THE SESSION

The speaker of Tej Gyan Sirshree shared lots of motivational words with us which would help all of us to live a happy life. It's all in the brain as brain is said to be the Brahmand which means Universe. We should give love to ourselves and to all to make everything beautiful and positive. Sirshree compared the human brain with a bus in which the frontal parts is like the driver of the bus which control the entire bus movement and the conductor is the back portion of the brain where else the passengers are the mid brain. In this bus there comes a superman from one window to other continuously and he is none other than our Mann. We should keep our mann in control before it controls us. One statement made by Sirshree that was remarkable was 'Bura mat suno lekin pura suno' which means that don't listen to bad things but listen everything completely.

KEY LEARNINGS FROM THE SESSION

1. Always be optimistic and think positive. Never do regret over your past actions.
2. Program your mind in a way that it never overpowers you and is always under your control.
3. Be calm and happy in all situations even they are not desirable.
4. We should accept that we deserve love and all the happiness that there is in the universe.

THINGS I WILL IMPLEMENT IN MY LIFE

1. I will always be happy and keep all negativities away from my life in all situations.
2. I will focus on self love more and praise myself more.
3. I will never look into my past and feel bad for my situations.

OUTCOMES

1. Think positive.
2. Love yourself.
3. Make peace with your situations.

CONCLUSION

It was a blissfull experience to listen to such a great motivational speaker who shared such high value thoughts with his audience. Sishree said we as humans in this planet are all facing problems and issues with their lives but we can conquer all these problem by the never giving up attitude and face everything happily and with a calm gesture. There is always a bright day after a dark night and so a happy phase of life after the problems.

So always be worry less and say 'HAPPY THOUGHTS'.
